April 23, 2004

Dear Administrator:

On behalf of the Flavor and Fragrance High Production Volume Consortia (FFHPVC), I would like to respond to your letter received April 12, 2004. The letter notes that the Terpene Consortium of the FFHPVC was overdue in its commitment to sponsor and provide data on bicyclo[3.1.1]heptanol, 2,6,6-trimethyl- (CAS Number 98510-89-5). We made the original commitment to sponsor this chemical in a letter sent to the Administrator on November 29, 1999. This letter reaffirms that we fully intend to sponsor this chemical. Data related to this substance will be submitted along with other new test data in our revision of the test plan and robust summaries on the chemical category designated "Terpenoid Tertiary Alcohols and Related Esters". This submission was originally provided to EPA on or about April 26, 2001. The revised category analysis, test plan, and robust summaries will include all relevant data for this substance.

Please feel free to contact me with any questions you might have on this matter (phone 202-331-2325; fax 202-463-8998; email tadams@therobertsgroup.net)

Respectfully,

Timothy B. Adams, Ph.D.
Technical Contact Person, FFHPVC
